

c360 Audit for Microsoft Dynamics CRM 4.0

Overview

c360 Audit is a Microsoft CRM enhancement that allows you to **Track** and **Analyze** all changes made to CRM. The components of c360 Audit are

1. **Audit Tracker**
2. **Audit Analyzer**

The **Audit Tracker** component captures all changes made to CRM data including custom entities and custom fields. Using the Audit Tracker, organizations will be able to:

- Track all changes made to CRM data including contact save, lead conversions, quote deletions, updating of account fields
- See the big picture view of the complete audit trail with the ability to drill down and open any CRM record with a single click
- See the before and after picture of every CRM save event
- User customizable view to see only the fields that are most critical
- See HOW an Account got its current status; Your existing CRM system is just a snapshot but using Audit, you can now see HOW
- Increase compliance with legal regulations such as SOX, HIPAA, The Privacy Act, and others by maintaining a verifiable audit trail

The screenshot displays the c360 Audit interface within a Microsoft Dynamics CRM environment. The main window shows a table of account transactions with the following columns: Transaction Type, Modified On, Modified By, Account Number, Credit Limit, Credit Limit (Base), Exchange Rate, Industry, Account Name, No. of Employees, owninuser, Parent Account, and Annual Revenue. The table contains three rows of data, all representing 'Account Updated' events.

Transaction Type	Modified On	Modified By	Account Number	Credit Limit	Credit Limit (Base)	Exchange Rate	Industry	Account Name	No. of Employees	owninuser	Parent Account	Annual Revenue
Account Updated	3/6/2008 8:42:52 AM	LitwareInc Administrator	089788	8990.00	8990.00	1.0000000000	Accounting	Cycle Mart	1500	LitwareInc Administrator	Active Cycle works	67899.00
Account Updated	3/6/2008 8:37:59 AM	LitwareInc Administrator	089788			1.0000000000	Accounting	Cycle Mart	1500	LitwareInc Administrator	Active Cycle works	67899.00
Account Added	3/6/2008 8:31:04 AM	LitwareInc Administrator	0897			1.0000000000		Cycle Mart		LitwareInc Administrator	Active Cycle works	

c360 Audit allows you to Track all changes made to CRM data

The **Audit Analyzer** component is a powerful **Business Intelligence** system that lets you analyze historical CRM information to gain a better understanding of your customers. Using the Audit Analyzer, Microsoft CRM users will be able to:

- Get critical insight to your historical CRM data by creating specialized queries like '**negative queries**', '**OR queries**' using special operators such as 'increased', 'not changed' etc
- Sales can now more easily identify 'stuck opportunities' in the funnel by creating the negative query "Show me all hot opportunities where status code has not changed in the last month"
- Create complicated 'OR queries' such as "All opportunities where the Estimated Amount has changed OR the Account Type has changed"

The screenshot displays the c360 Audit Analyzer interface. At the top, there are filters for 'Analyzer Filters' (set to 'Account changes'), 'CRM View' (set to 'My Active Accounts'), and 'Time Period' (set to 'In The Last 7 Days'). Below these filters, a summary table shows account changes:

Account Name	Main Phone	Address 1: City	Primary Contact	E-mail (Primary Contact)
Active Cycle works	090-234			
Cycle Mart				

Below the summary table, a detailed 'Audit Views' table is shown for the 'Account' view. This table tracks changes to account information:

Transaction Type	Modified On	Modified By	Account Number	Credit Limit	Price List	Exchange Rate	Industry	Account Name	No. of Employees	owninguser	Parent Account	Annual Revenue
Account Updated	3/6/2008 8:47:12 AM	LitwareInc Administrator	089788	8990.00	Cost of Prod1	1.0000000000	Accounting	Cycle Mart	1500	LitwareInc Administrator	Active Cycle works	67899.00
Account Updated	3/6/2008 8:42:52 AM	LitwareInc Administrator	089788	8990.00		1.0000000000	Accounting	Cycle Mart	1500	LitwareInc Administrator	Active Cycle works	67899.00
Account Updated	3/6/2008 8:37:59 AM	LitwareInc Administrator	089788			1.0000000000	Accounting	Cycle Mart	1500	LitwareInc Administrator	Active Cycle works	67899.00
Account Added	3/6/2008 8:31:04 AM	LitwareInc Administrator	0897			1.0000000000		Cycle Mart		LitwareInc Administrator	Active Cycle works	

c360 Audit Analyzer allows you to query and analyzer historical CRM information

Evaluation Copies

Free evaluation copies of c360 Audit can be obtained from c360 Solutions' web site. Evaluation copies come with a license key that provides unlimited usage with the sample installations ('Adventure Works Cycle', 'Adventure Works Cycle Demo') of Microsoft CRM. 15-day trial production evaluation license files are also available on the c360 web site.

Pricing

The cost of Audit is \$3500 server fee (includes c360 remote installation assistance) and \$125 per assigned Microsoft CRM license.

Languages

All c360 products are available in multiple languages and can be easily translated into additional languages by simply making changes to the label and caption values found in a separate .XML document. Each product's Installation and Configuration guide provides

detail on making language modifications. All product downloads include language files for multiple languages.

Licensing

The number of Audit licenses must equal or exceed the number of assigned user licenses or Core Productivity Pack will not function for any user. For example, a company that has purchased 25 Microsoft CRM licenses, but has only 11 of them assigned to users needs 11 Audit licenses.

Support, Upgrades and Enhancements

The list price of Audit includes first year support, upgrades and enhancement per the c360 Solutions Software license agreement. After the first year, a support and enhancement plan can be purchased for 20% of the total cost of all Core Productivity Pack licenses.

c360 Partner Program

Authorized Microsoft CRM partners may inquire about the c360 partner program by visiting <http://www.c360.com/PartnerProgram.aspx>.
