

## **c360 Data Quality Center Remote Install Assistance**

The c360 Data Quality Center Remote Install Assistance offering provides the technical assistance necessary to get the c360 Data Quality Center up installed and running. The installation also includes configuration of 'duplicate detection' comparison rules (matchcode, Soundex) utilizing industry best practices and basic training of the Data Quality Center. Using a remote access tool, c360 Solution support professionals work with your internal personnel to successfully complete all necessary installation steps. Remote access tools enable c360 Solution support professionals to install the c360 Data Quality Center Components on any server that can access to the internet via HTTP.

### **Information**
